THE BROOKLYN SCANDAL.

Mrs. Tilton Before the Grand Jury.

The Indictment for Libel Against Moulton.

The "Mutual Friend" Demands an Early Trial.

The District Attorney Considers the Weather to Warm for Such a "Luxury."

NEW YORK, July 8, 1875.

The Loader-Price Perjury Case.

The *Tribune* of this morning was premature, at least, in the statement that Loader and Price had been indicted.

The *Evening Post* says Mrs. Elizabeth R. Tilton paid a visit this morning to the Grand Jury room and made a deposition in denial of the affidavits of John J. Price and Joseph Loader. Mr. Beecher was before the Grand Jury yesterday, and the testimony of these two witnesses will, it is presumed, prove sufficient to warrant the finding of indictments for perjury against Loader and Price.

Correspondence Between Moulton and the District Attorney.

The following correspondence between Frank Moulton and District Attorney Britton explains itself:

Mr. Moulton's Letter.

SIR: It is now nearly a year since, at the instance of Rev. Henry Ward Beecher, I was indicted for libel in charging him with adultery with Elizabeth R. Tilton. During all this time the prosecution have taken no step for the trial of the indictment. I am advised that I have a right to demand a trial, and accordingly I hereby notify you that I am ready at any moment to meet the charge, and I request you to appoint the earliest practical day for the trial. And since it is intimated by partisans of the prosecution that they intend to shield him from the consequences of exposure involved in the trial of my charge of adultery by procuring a withdrawal or suppression of the indictment, I hereby protest against such an evasion of public justice and outrage upon private rights. If Rev. Henry Ward Beecher be innocent of the charge I have published against him, I ought to be punished for my offence. On the other hand, if I have not accused him falsely, and he were guilty of the offense, society and law owe me an acquittal and vindication from the indictment preferred against me.

Very respectfully, yours,
FRANCIS D. MOULTON.

To Hon. Winchester Britton, District Attorney.

The District Attorney's Reply.

OFFICE OF DISTRICT ATTORNEY, KINGS COUNTY, BROOKLYN, July 8, 1875.—Francis D. Moulton, Esq.—Dear Sir:—The contents and character of the publication relating to the Beecher-Tilton controversy for the past year have been such that I am inclined to think that in case I am called upon to prosecute criminally every libel which has been published in connection with it, the more important administration of the criminal law will of necessity stand over for the next half century. It is among the misfortunes of civil courts that parties may there indulge in all manner of quarrels and exploits, natural or artificial, at their will; but courts of criminal jurisdiction are moved only by the people and for the people of the State. In this hot weather jail cases like those of Loader and Price have the preference, as it is regarded a greater hardship for parties not yet proven guilty to sweat in Raymond street than to suffer from libelous publications. It would afford me great pleasure to try you for any offense coming within the severer duties of the summer months, but it is out of my power to indulge you in what you seem to regard as a luxury at the cost of neglect of business entitled to a preference. Later on I may be able to accommodate you to your entire satisfaction, and then you may have reason to rejoice that the ordeal had not taxed your energies and fortitude during the heated term.

Very respectfully,
WINCHESTER BRITTON,
District Attorney.

Proposed Reception to Beecher.

A committee consisting of Hon. A. W. Tenny, S. M. Pettingill, Rev. Dr. Conant, Prof. H. B. Sprague, E. A. Taft, Rev. W. R. Davis, Judge A. G. Hull and B. E. Hale has been appointed to make arrangements for a public meeting and social reception to Henry Ward Beecher early in the fall during the week preceding Mr. Beecher's resumption of preaching. The meeting is intended as a public expression of confidence in and love for the pastor of Plymouth Church. A number of clergy and many eminent citizens have signified their intention of participating in the movement.

CINCINNATI.

Meeting of Distillers, Rectifyers and Liquor Dealers.

CINCINNATI, July 8.—A meeting of distillers, rectifyers and liquor dealers of Ohio, Indiana, Illinois and Kentucky was held here last evening, at which the following resolutions were adopted: Recommending a change of gaugers from one District and State to another every thirty days, and storekeepers every sixty days, as one of the best methods for preventing frauds, and a thorough and effective system of examination prior to appointment to secure competency of gaugers and uniformity of inspection; requesting the prompt release of goods seized upon insufficient grounds, and requesting the Government to hold officers to a more rigid accountability for neglect, omission or errors committed by them in the discharge of their duties; pledging themselves to assist the Government in collecting the tax on distilled spirits and in the suppression of frauds.

The meeting adopted a resolution thanking the Secretary of the Treasury for his earnest efforts to detect and stop all frauds.

ST. LOUIS.

The Chandler-Buell Libel Case.

ST. LOUIS, July 8.—The Chandler-Buell libel case came up again in the United States District Court here to-day on an application by District Attorney Dyer for a writ of removal to the District of Columbia under a new indictment found by the last Grand Jury in session in Washington. This new indictment raises entirely a question of law, in that it charges the alleged libelous publication to have been made in Washington by the act of filing the manuscript of a special dispatch to a Detroit newspaper in the Washington office of the Western Union Telegraph Company. No other complete act of publication is charged in the new indictment, and the appearance of the alleged libel in the Detroit *Free Press* is only mentioned incidentally. The case will turn on the question whether or not the filing of the special dispatch in the office of the telegraph company constitutes a publication in law.

TEXAS.

Cortina on His Way to the Mexican Capital—One Prisoner Shot.

GALVESTON, July 8.—The *News'* Brownsville special says a force of fifty cavalry and twenty Custom House guards, under command of Colonel Parrat, escorted Cortina and prisoners to Bagdad. They shot and hung Maurico Portigui, who had threatened to shoot the officers of the Ninth Cavalry near Matamoras. The gunboat Juarez, with the prisoners, sailed yesterday. She had on board arms and ammunition. Permission was granted to discharge her at Brazos Santiago and bring them through Brownsville.

Mexican papers claim that the removal of Cortina will permit the authorities at Matamoras to execute the law.

MILWAUKEE.

Decision in a Whisky Case.

MILWAUKEE, Wis., July 8.—Judge Dyer, of the United States District Court for this district, delivered an opinion to-day denying a motion to vacate an order upon one Stanfield, a rectifier, requiring him to produce his books and papers. It was argued by ex-Senator Carpenter in support of the motion that a man could not be compelled to furnish evidence that would criminate himself. Ex-Chief Justice Dix represented the Government in argument of the motion.

The Temperance War in Ohio.

COLUMBUS, Ohio, July 8.—In response to the writs sworn out by H. H. Corbin, the Westerville saloon man, nine prominent citizens were arrested on peace warrants and brought here for trial. The prosecution was not ready for trial, so the defendants waived an examination and gave bonds in the sum of $300 each. Five thousand dollars have been subscribed by the citizens of Westerville to carry on the contest.

Election by Ballot in Canada.

QUEBEC, July 8.—General elections for members of the Legislature for the province of Quebec took place yesterday, and the inauguration of the ballot system passed off in an orderly manner. The indications are that the Government will have a majority.

SPORTING NEWS.

Long Branch Races.

LONG BRANCH, July 8.—The Monmouth Park races were continued to-day, which is the last of the first meeting. The first race was for the July stakes for two year olds, dash of ¾ of a mile. Four horses started. Parole, the favorite, won easily; Freebooter second, Bryan third. Knapsack and Freebooter bolted. Time 1:17¼.

Second race, purse of $1,000, all ages, four miles. There were four starters—Bigfellow, Rutherford, Wildidle and Bessie Lee. Bigfellow, the favorite, led until the last half mile, with Wildidle second, when Rutherford went to the front and won in a gallop by four lengths; Wildidle second, half a length in front of Bigfellow, and Bessie Lee a furlong away. Time 7:34¾.

The third race was a dash of one mile and an eighth, purse of $400. Bob Woolley rushed to the front at the start and kept in the lead until the last quarter, when Spendrift drew out and won by four lengths; Carver second, half a length in front of Bob Woolley, Verdigris fourth, Monmouth fifth, and Galway last. Time 1:59¼. Spendrift sold for $130 in a pool of $1,400.

The fourth race, for beaten horses, one mile and a half, was won by Scratch, Dublin second, Vandalite third. Time 2:44.

The Races at Detroit.

DETROIT, July 8.—The fastest time ever made on this course was made by Judge Fullerton to-day. The first race was the unfinished 2:30 race of yesterday. Four heats were trotted yesterday. Two were taken by Richard and two by Basil Duke. The fifth heat was a hot one between Richard and Duke, the latter winning by a length, Richard second, Clifton third. Time of the last heat, 2:28¼.

The next was a free for all race for a purse of $2,500, with Fullerton, American Girl and Lady Maud as starters. Cozette was drawn in the first heat. Fullerton went off his feet just after getting the word, and was left fully twenty lengths in the rear, but did some fast trotting, coming in six rods behind American Girl. The next three heats were won easily by Fullerton, with American Girl second and Lady Maud third. Time 2:20, 2:21¼, 2:22¼.

In the 2:40 race, for a purse of $800, there were only two starters—Lady H. and Mistress. The former was easily the winner in three straight heats. Time 2:51¼, 2:41¾ and 2:39¾.

A READING mother is in despair because the inexplicable taste of her daughter has inclined the girl's head toward a colored youth, whom she wants to marry.

THE clergymen of Towanda have struck—that is, they have combined to have but one service on Sunday for the next six months, and sinners must get along the best way they can.

THE people of New Freeport, Greene county, and vicinity are agitating the building of a narrow-gauge railroad from that place to a point on the Baltimore and Ohio Railroad, six miles in length.

THE Sabbath School children of Beaver and Bridgewater, celebrated the 4th of July by having a very enjoyable picnic in the Fair Grounds on last Saturday. The attendance was large, and old and young spent the day very pleasantly together.

THE Alderny calf presented by Gov. Hartranft to Mr. S. Quay, while chewing its fodder in its pasture at Beaver, somehow got a dose of poison mixed up with the food, and the greatest skill of the cow doctor was required to preserve its valuable life.

MISS BEATRICE LYTLE, residing on Block House Run, a short distance from New Brighton, died on Sunday morning of last week, from the effects of poison—taken by mistake, as alleged by herself before death—a portion of arsenic instead of a dose of salts, as she supposed.

FOSTER, one of the men confined in the Clarion county jail, made a bold and partially successful attempt to escape on Monday night. He succeeded in getting into the hall of the jail building, and finding Mrs. Beck, the Sheriff's wife, there, knocked her down and gained egress to the street. She raised the alarm, and a number of citizens rushing to the rescue, Foster was again re-captured and returned to his cell, where he will have time to speculate on "what might have been."

ON Tuesday last, Mack Shrodes, freight conductor on the Low Grade Division of the A. V. Railroad, was killed at Reynoldsville, Clarion county. The train was in motion and passing into the bridge. Shrodes was climbing to the top of one of the box cars, the upper part of his body being above the top of the car. He was looking back at the train, when his body came in contact with the bridge. He was knocked off the train and fell into the creek beneath, a considerable distance. When his body was found one leg and an arm was broken, and his neck dislocated. Death is supposed to to have been instantaneous.

A DOG and his owner, the former attracting no little attention, put in an appearance at the Beaver station on the C. & P. Railroad, last Wednesday morning. The "purp" weighed 160 pounds, and was decidedly the most ferocious looking brute we ever saw. He was bred in Denmark, and his owner claimed that he was half-dog and half-tiger. His great weight and strength, added to his fighting propensities, enables him to kill, on short notice, any and all dogs who come in conflict with him. The owner had him secured with a rope, but the admiring crowd took good care to keep at a distance and "let him alone." He required only about five pounds of meat per day to keep his digestive organs in active operation. The owner of this canine wonder, says he has been offered $250 for his "pet." We wouldn't take that sum, and own him.—*Beaver Argus and Radical.*

A ROBBERY of a unique character has just been developed. On Monday a large assemblage convened at Salem, Clarion county, to witness laying the corner stone of a new church. As is customary on such occasions, a cavity was prepared in the stone for the reception of coins, papers and other suitable articles. Still further to enhance the interest, it had been decided to also place in the receptacle a tin box deposited in the corner stone of the old church nearly forty years ago. For this purpose the stone was lifted from its position in the presence of a large multitude, to whose intense astonishment no tin box could be discovered. It was but too evident that some miserable thief had attended the ceremonies in 1838, and returned during the night to overturn the stone, from which he abstracted the box and its contents, and then quietly replaced the stone in its former position, so that no suspicion was even entertained that such a dastardly act had been committed. The matter excites much attention in the neighborhood, but there is little prospect that the perpetrator will be revealed until Gabriel ushers in the judgment day with his little trumpet.

PEACE RAILROAD RATES.

The New Passenger Tariff for the West—Pittsburgh Higher Than Before the "War."

Since the adjustment of the difficulties between the Pennsylvania and the Baltimore and Ohio Railroads the following schedule of new rates has gone into effect:

The rates from Philadelphia are in all cases, except to Pittsburgh and Detroit, just $1 below those of New York to the same points. The Pittsburgh-Baltimore rate—$9 is 50 cents higher than the regular rates prevailing before the war. All the other new rates are above those of antebellum times. Before the war the fare from Baltimore to Chicago was $19, St. Louis $23, Cincinnati $16, Columbus $13.50, and Louisville $20. The Baltimore & Ohio cut-rates have been to Chicago $10, to St. Louis $15, Cincinnati $10, Columbus $9, and Louisville $12. The Pennsylvania Company's cut-rates have been somewhat lower, being to Chicago $8, St. Louis $10, and Cincinnati $6. The new rates have been adopted only by the Pennsylvania and Baltimore & Ohio companies.

The Shooting Matches.

LONDON, July 8.—A letter was received by Colonel Gildersleeve in relation to the shooting by the American riflemen at Wimbledon from Henry Parsons, Adjutant of the English eight. Parsons says: "The Council is not willing to admit another team to shoot with our three eights in the Elcho Shield match, but they propose a match to take place on the 17th inst., for Lloyd's Cup, between the Americans and an eight selected from the three British teams. At the same time the Council does not despair of a match between the four eights, which, perhaps, may be managed for the Monday following the shooting at Wimbledon. In the meantime it hopes that the match proposed for the 17th inst. may be agreeable to the Americans."

Dinner to the Governor General of Canada.

LONDON, July 8.—The Canada Club gave a dinner last evening to the Earl of Dufferin, Governor General of the Canadian Dominion. The Earl, in response to a toast, said the prevailing passion of Canadians was a desire to maintain intact their connection with England. It was impossible to overstate the depth or universality of this sentiment. He expatiated on the friendly relation between Canada and the United States, and said every thoughtful citizen of the United States was convinced that the fate of Canada is unalterably fixed, and contemplates the progress of Canada with generous enthusiasm. The Americans are wise enough to understand the benefits arising from the existence on the same continent of a political system offering many points of contrast, comparison and friendly emulation with their own.

A Commercial Crash in Norway Imminent.

The *Pall Mall Gazette's* Copenhagen correspondent says all the leading Norwegian papers fear a commercial crash in Norway in consequence of bad freights and stagnation in the timber trade.

The Difficulty with Burmah.

LONDON, July 8.—In the House of Commons this afternoon Lord Hamilton, Under Secretary of State for India, in reply to an inquiry of Grant Duff touching the difficulty between Great Britain and Burmah, said earlier matters in dispute had been satisfactorily arranged, but the murder of Margarry necessitated the Government's insisting that the King of Burmah should give every facility for the punishment of the offenders. The King had refused to permit the passage of British troops through Burmah, but Lord Hamilton hoped that he would yield to the representations of the British envoy, and thus prevent a collision.

A Royal Visit to India.

Disraeli made a statement in regard to the contemplated visit of the Prince of Wales to India. He said the simplicity suitable for a visit to the colonies would not be in place for a journey through India, though the Viceroy had intimated that the custom of making ceremonial presents need not be observed. Yet the Prince must be placed in a position to exercise generosity and display splendor. It would, however, be undignified to enter into a discussion upon this point. His Royal Highness will start for India on the 17th of October, and his visit will last six months. The expenditure to insure the necessary pomp and dignity would be $710,000.

Messrs. Macdonald, John O'Connor, Power Burt and Peter Taylor made speeches protesting against the grant for the Prince of Wales' eastern trip. Debate on the measure will take place on the 15th instant.

Entertainments to the American Riflemen.

BELFAST, July 8.—The American riflemen made an excursion to-day to the Giant's Causeway. They were accompanied by the band of the Ninety-fourth Regiment. Large crowds of people congregated at the stations along the route and at Port Rush, the terminus of the road. There was an immense concourse. On their return the team attended the theatre. The house was crowded and the visiting riflemen warmly greeted. Upon their entry American airs were played by the orchestra, and great enthusiasm was manifested by the audience.

Reply to Newspaper Criticisms.

LONDON, June 9—5:30 A. M.—Mr. Parsons, Adjutant of the English eight, replying to criticisms in the newspapers on his proposals for a match between the Americans and a mixed British team, explains that the original plan which he proposed for the competition for Lloyd's cup was that sent to Col. Gildersleeve on June 26 for a match between the English, Scotch and American eights. That plan was approved by Wharncliffe, Gildersleeve and the captains of all the teams concerned. Afterwards third parties persuaded the council to veto the arrangement. He has no hesitation in saying that the English mixed team of eight now proposed will have no chance against the Americans. He expects a shower of letters from well-known shots endorsing his opinion. The men will be unknown to each other, and armed with all sorts of rifles. These circumstances will destroy the possibility of concerted action. When the Americans have thoroughly beaten them, every rifleman in England will say: "After all, it was no match."

Mr. Parsons concludes: "I shall greatly regret so lame and important a conclusion, and protest against suggestions without reflection."

Another Attack on the United States.

LONDON, July 9—5 A. M.—The *Standard*, in a review of Lord Dufferin's speech at the dinner of the Canada Club, makes another violent attack on the United States. It decries emigration to that country, and believes, in spite of Lord Dufferin's disavowal, that Americans still covet Canada, and would assert a claim to the St. Lawrence as greedily as to the Mississippi, if they were not restrained by prudence.

The *Standard* continues: "We wish Canadians to understand that England regards them as Englishmen, and would fight for Canada as for Kent. A suggestion to abandon Canada would overthrow the strongest Ministry England has ever known."

SPAIN.

Gen. Dorregaray's Retreat.

MADRID, July 8.—The Alfonsist forces under Martinez Campos sailed from Vinaroy on the 6th instant for Catalonia. Gen. Jovellar, with the main body of Alfonsists, was to leave Cantavija to-day for the purpose of recrossing the Ebro in pursuit of General Dorregaray, who, with 7,000 men, had vainly attempted to cross the river. Cinca Delatre's brigade bars the passage toward Catalonia.

Fighting in Earnest.

MADRID, July 8.—The Alfonsist General Arrando has, after a five hours' engagement, defeated nine Carlist battalions under the command of Saballo, and relieved the town of La Junquera. The loss on both sides is considerable.

Generals Queseda and Loma forced the Carlist position at Trevino, and sent Tello to relieve Vittoria. Many Carlists were killed in these movements.

A Spanish squadron bombarded the town of Bermeo two days.

Among the prisoners captured by the Alfonsists at Cantavieja were representatives of the provincial deputation of Arragon and pupils of the Carlist military school.

Carlists Demanding Amnesty.

Carlists are continually presenting themselves to the authorities at Castellar, demanding amnesty.

FRANCE.

Another Inundation.

PARIS, July 8.—The rivers Touques and Orbiquet overflowed their banks last night, inundating the town of Lesieux and its environs, in the Department of Calvados. Railway traffic is interrupted, several bridges having been destroyed. There was also some loss of life. Four persons were drowned at Lesieux and three at Glos. The waters are subsiding at Lesieux, but are rapidly rising at Pont l' Eueque, lower down on the Touques.

PARIS, July 8.—In consequence of heavy and continued rains, floods are feared in the valleys of the Seine, Marne and Saone.

The Prospect Brightening.

PARIS, July 9.—A telegram received here states that the Alfonsist General Quesada has re-established communication with Vittoria. The war in the centre is thought to be finished. The situation in the north is much ameliorated

SWITZERLAND.

Terrific Rain and Hail Storm.

BERNE, July 8.—A terrific rain storm, accompanied with hail, visited the Swiss Canton of Geneva and the French frontier. The hail stones were of unusual size, killing and wounding many persons, destroying crops and damaging much valuable property.

The Grangers.

The Executive Committee of the National Grange held another session to-day, and after considerable discussion, by a vote of three to two, agreed to remove the headquarters of the National Grange from Washington to Louisville, Ky. A DESPERADO SHOT.

How a Fugitive Eluded the Officers—But was Checkmated at Last.

A shooting affair that resulted fatally occurred at Modoc City on Wednesday evening. The victim was a somewhat noted character, known as Andy Martin. He was wanted on a charge of stealing a string of casing valued at about $600 from a well owned by John Scott, Esq. When the information was made against him in Butler, two officers were sent with the warrant, as he was known to be a dangerous man and hard to handle. They met their man, and one of them tapped him familiarly on the shoulder, and remarked playfully, "You're my prisoner!" The next moment the facetious officer felt a lightning stroke, or something like it, back of his ear, and he laid down to meditate while the prisoner broke away and was out of sight before the other officer could collect his thoughts, or seize him. The next day another officer was sent, and he traced Martin to an alley in Modoc City, but failed to catch him, although he sent four balls whistling after him. Officer McCoy was last on the list. He expressed a determination to "fetch his man" or not come back himself. He encountered Martin in Modoc, and made known his business. Martin pursuing the tactics which had been successful with the others, promptly struck out from the shoulder, sent McCoy to grass, and then proceeded to decamp. McCoy, however, quickly recovered, and sent a ball after the fugitive. The leaden messenger struck the fleeing man in the back and passed clear through his body, inflicting a wound from which death resulted in about twenty minutes. The remains were brought to Butler, and at the inquest the officer was acquitted. Martin leave a wife and several children.

The resolution authorizing the erection of these lamp was passed finally.

Mr. LAUTNER presented the report of the Committee on Markets, showing the following receipts for the past month:

Clerk of Markets	$1,365 68
Second ward scales	246 20
Diamond scales	137 35
Fourth ward scales	32 00
Total	$1,781 23

Received and filed.

Mr. SHOLES, from the Committee on Fire Engines, presented an invitation from the committee, asking Councils to attend the review of the Fire Department on Thursday afternoon, July 15, at four o'clock. Accepted.

Business from Select Council was then taken up.

Ordinance 68 was discussed somewhat. It authorizes the opening of Munroe street from intersection of Spring Garden avenue and Center street to River avenue. The ordinance was finally passed by a vote of 23 to 2, the action of S. C. being thus concurred in.

Ordinance No. 70 was next taken up. It provides for the grading, paving and curbing of Stockton avenue, from Sherman to Marion avenues. This ordinance was opposed by the members of the First ward on the ground that the road wound around from Stockton avenue and Marion avenue and was only made to accommodate the railroad company, while it entailed an unnecessary expense on the property owners of the First ward without a corresponding benefit. The city would have to pay the bill and had no money to do it with. Others contended that the improvement was necessary to complete the Park improvement in that section and to provide a thoroughfare that was needed there. The ordinance was lost—the vote being 6 ayes to 14 nays.

The ordinance for the opening of North alley, was laid over.

The ordinance authorizing the grading, paving and curbing of Evans alley, was passed.

The ordinance fixing the licence fees for shows &c., was passed finally.

Mr. JOHNSTON moved a reconsideration of their action in defeating the ordinance for the opening of Frazier street. Carried. The ordinance was then passed finally, the action of Select Council being thus concurred in.

Mr. DRUM moved a re-consideration of the action in reference to ordinance No. 57 granting Thomas A. Weger right to erect two frame buildings on Braddock street, Second ward. Carried. The ordinance was then passed finally.

Mr. COCHRAN moved to reconsider their action in laying over the ordinance with reference to the opening of North alley. Carried.

Some discussion ensued upon the matter, conducted by the chair and Mr. Golden, when finally the ordinance was voted down by a vote of 13 to 9.

Mr. WACHOB asked for a report from the Health Committee.

Mr. DRUM, Chairman, said the committee, since the last meeting of Councils, had taken no action that was required to be reported to Councils. He, however, would answer any questions that the gentleman might ask with reference to health or other matters under the committee's jurisdiction. He thought he understood what the gentleman wanted, but he (the Chairman) could not report what he was not authorized to report by the committee.

Mr. WACHOB desired a little information as to the Health Officer.

Mr. GOLDEN objected to an attack upon a public officer without specific charges being properly made.

Mr. WACHOB then offered a resolution requesting the Health Committee to investigate certain rumors with reference to the Health Officer and to report to Councils. Carried.

Mr BURTON presented a resolution for a gas lamp on Robinson street. Carried.

Mr. PENTECOST, ordinance for a sewer on James street. Referred.

Mr. BROWN, a resolution for a stone crossing corner of Hemlock and Esplanade street. Referred.

Mr. MCGUIRE presented the resignation of Mr. A. J. Pentecost, member from the Third ward. Accepted. Eulogistic remarks on the retiring member were made by Mr. Golden.

The chair read a communication from the Park Commission, in which they agreed to take charge of the Third ward Diamond square, as requested. They suggested that some measures be adopted to keep tresspassers off the grass. Received and filed.

Mr. SHOLES offered a resolution ordering special elections in the Third and Ninth wards to fill vacancies. Carried.

Adjourned.

VERDICT

In Favor of Howe's Standard Scales.

We, the undersigned, comprising *all the wholesale Butchers* of Chicago, are using the IMPROVED HOWE STANDARD SCALES, and after using Fairbanks' and other Scales, do find that the improvements in the HOWE Scale render it the *best.*

We use a scale *severely*, and find the HOWE to be *the strongest.*

We weigh out each day over *thirty thousand dollars worth of meat*, to the retail markets, in various quantities, and require our *large scales to weigh small fractions of a pound.*

This merit we have *found* is *alone* possessed by the IMPROVED HOWE and is maintained after the most severe and longest tests, being attributable to the patent chilled iron balls between the platform and knife edges, on which all friction is received, thus preserving the fine edge of the pivots on which the correct and delicate action of a scale depends.

We also find the IMPROVED HOWE SCALES *the most economical*, not needing the frequent repairs that Fairbanks' and other scales do.

GOLD closed in New York yesterday at 116.

WE have received from the publishers the June number of the *Quarterly Review*, which sustains the high character of the able work.

SINCE the new banking law went into effect, about one year ago, the total net increase in National bank circulation is only $1,978,826.

THE insanity of Robert Dale Owen is fully confirmed. He was recognized as one of our most finished writers, and his conversational powers were of a very fascinating kind.

THE money report of the London market shows English consols worth 94 3-16, whilst United States bonds of 1862 are quoted at Frankfort at 98 9-16. The rate of discount in the open market in London is at present 3½ per cent.

A SHORT TIME ago the lower branch of the Baltimore City Councils expelled a member, detected in receiving a bribe for his vote, and now the upper branch is engaged at the same work on one of its pure Democratic members. We give Baltimore credit for its labors in this direction.

ONE of Japan's most sagacious statesmen and famous soldiers—General Saigo—has been designated by the Emperor to represent his country at our Centennial. He is called by the New York *Post*, the Garibaldi of Japan. He has filled all the important offices during his public life under the different Emperors, and is "renowned in war."

AT Cincinnati, yesterday, judgment was given plaintiff in a suit to recover on a promissory note, issued after the defendant had left the firm. No notice of dissolution having been published—although it had actually taken place prior to the transaction—the Court held defendant still liable for the debts of the old firm. Better advertise; it pays.

MINNESOTA Democracy faces the music, and toes the mark squarely when it declares for a tariff for revenue only; *none for protection.*" It does not believe in whipping the devil around the stump, like its brethren in Pennsylvania attempt to do. The national party is clearly against protection of our home industries. They prefer to buy manufactured articles abroad and pay for them in gold, rather than keep our mechanics, artisans and laborers employed at home.

FROM the Bureau of Statistics we learn that in the three months ending June 30, of this year, the number of immigrants arrived in New York was 45,556, of whom 25,625 were males, and 19,931 were females. In the corresponding period of 1874, the number was 68,955, showing a decrease of 23,399 from last year. Of the arrivals in June last, 3,264 came from Germany, 3,192 from Ireland, 2,246 from England, and the remainder from other countries. Immigration is not falling off, as compared with the average arrivals for some years back, although, so far, this year is behind last.

THE *Western Catholic*, published at Chicago, has this to say of the Common School system:

"The injustice of Protestantism is singularly exemplified by its permitting the Catholics to pay for two systems, as they are compelled to do under the present order of things. They are taxed for the Common Schools, which they cannot use, and they have to support, in addition, their own educational establishments."

The Chicago *Tribune*, in copying the article, pertinently adds at this place the following note:

"Why can't they use the Common Schools? Three-fourths of them have done so for the past four-score years."

THE grain crops of Hungary, France and Russia are all below the average, which makes it certain that our surplus will be wanted for shipment. A good export demand for our cereals, with diminished importations, will produce just what is most needed by this country. When Europe is largely in our debt, our affairs are in their best shape; gold is kept down in price, and other values are regulated. If we could only succeed in paying all current purchases, along with the interest due abroad, in the products of the country, keeping our gold at home, we might laugh at adversity. The export demand promises this year to be large.

SURELY, if the increase recently voted to the salary of Mr. Beecher, whereby it was raised from $20,000 to $100,000 per annum, is any indication of the estimation in which he is held by his congregation, he has no cause to regret that the scandal trial came on, or that it failed to result in a complete verdict for him. The steadfast friendship, under his great trial and affliction, of those who know him best, is something to be proud of, and more than offsets the opinions of those who would only be too glad to drag him down. He emerges from the great trial with influence unabated, and is proffered an annual salary twice as great as that of the President of the United States, and larger than that of any individual in the country.

THE petition presented by John Bright, in the House of Commons, the other night, signed by sixty thousand farmers, asking the extension of household suffrage to counties and boroughs, and for a redistribution of Parliamentary seats, is indicative of the political unrest which prevails among the agricultural districts of England. The discussion which ensued showed the pure justice of the claim; that the non-enfranchisement of the agricultural laborers has kept them in gross ignorance; that all parties had agreed upon the merits of the demand; that the leaders, including Disraeli, had favored it; and that sooner or later the House would be obliged to concede the just demands of an indignant people. After proving so much, the House divided, and the bill was lost by a vote of 166 yeas to 268 nays. The matter will not end there.

THE arrival of the American team in Belfast was signalized by the greatest demonstrations of welcome and joy, the public greeting and display exceeding in heartiness their reception in Dublin. We are informed that "Mayor Lindsay and the corporation of the city were at the station to receive them as they stepped from the carriages. The streets through which they passed were thronged, and were festooned with flags and banners. The cheering was incessant. When they reached the hotel the Mayor, in response to loud calls for the Captain of the team, introduced Gildersleeve, who expressed his thanks for the enthusiastic welcome. Welcoming crowds were collected at every station between Dublin and Belfast." The success of our "team" in the shooting matches continues, and we read the accounts of their tour, sent by telegraph daily, with pleasure. The influence of so much kindly international feeling will not be lost, we are sure. The "team" go next to England, thence through Scotland.

OF THE riot in Vicksburg, wherein "*two negroes*" were killed on Monday last, the *Post* remarks as follows:

"It so happens that every one engaged in this particular celebration were colored, and the fight was a fight among themselves."

In order to show how near the truth the *Post* gets in the above, we republish the report of the riot from its own columns as follows:

"A disturbance at a negro meeting at the Court House, at Vicksburg, July 5, grew out of a difficulty between two white men, one of whom was dangerously wounded. A pistol was then drawn by Ben. Allen, a colored politician. He was knocked down at once by the whites and severely beaten. Soon after this a fight occurred between a negro and a white man, in which the negroe's skull was broken. A shot was then fired into the crowd by a negro riding past in a hack, which was returned by the whites. During the melee two negroes were killed and one seriously wounded."

It is strange that in all these reports of riots in the South, between the whites and blacks, the latter are nearly always the sufferers, whilst they are usually charged with being the aggressors by the parties who doctor up the telegrams.

OUR TICKET COMPLETE.

The nomination of Mr. Richard H. Fife, for Sheriff, by the Republican Convention, yesterday, will, without doubt, prove highly satisfactory to the great majority of the party. His personal and official record is without a stain or suspicion of any kind, and his popularity throughout the county is evidenced by the large number of delegates returned for him, as well as the manner in which they adhered to his fortunes amid all manner of difficulties. He was originally from one of the townships South of the rivers, and his nomination is particularly satisfactory to the country, while it will tend greatly to unite the vote with in the cities. He is free from all connection with any clique or special interest, and goes before the voters of the county, as an independent citizen, standing upon his record as a tried public officer. Having received the unanimous endorsement of the large Convention of his party, he is sure to be elected, as this unanimity is proof that all personal feeling is laid aside. The GAZETTE approves of the choice made by the delegates, and will give the whole ticket its hearty support.

The defeated candidates can congratulate themselves on having made a brave and vigorous fight, and their graceful yielding up the palm of victory to the successful contestant is proof of their high honor and personal worth, exhibiting, as it does, that they place the success of the party above any mere personal aims or purposes.

To the delegates to this important Convention we especially wish to say one word of praise. You have shown to the enemies of the party that principle guided you in all your actions, as it is well known that no influence could persuade you to yield from the purposes had in coming into the Convention. The charge of bribery or corruption of any kind is wholly blown to the winds by your determined conduct to "stick" to your promises to vote for the men of your choice, as long as any hope was held out, and settled firmly in the public mind that no combination or "ring" of any sort could "fix a slate" for your support. We congratulate you upon the record, in this regard, that you have made, and now ask the support of every Republican in the county for the entire ticket.

A SNEERING ARGUMENT.

The New York *Tribune*, which has the distinguished honor of being regarded Jay Gould's "organ," seeks to sneer at the GAZETTE's articles on Finance, by declaring that we obtrude the prejudice against England as a make-weight, and affirming, by inuendo, that all that has resulted from English experience is wise and good,—instancing law and medicine as examples. As it is well known that the *principles* of law did not originate, but were merely formulated in England, and that since America has contributed quite as much as the mother country to the illustration and application of law,—the value of this allusion may be accurately seen. The reference to medicine is even more at fault. It will not be contended, even by the *Tribune*, we judge, that abstract medical science originated in England. The science existed,—bearing about the same relation to present-day medical science that astrology does to astronomy,—when the people of England were barbarians. And if the *Tribune* refers to the special schools of medicine, it is still at fault. Even Allopathy is not distinctly an English science, while Homœopathy is French in its origin. We do not, therefore, tie ourselves to England, even as regards the liberal sciences.

When the *Tribune* was under the editorship of Horace Greeley, a really able editor, it was distinguished for its unceasing war on an English institution,—Free Trade. Yet the relation of English *experience*, to that phase of English economy, was identical with her experience as to monetary affairs. During her struggling, debt-developing period, she maintained a high protective tariff, and paper currency. The one was identical with the other. When it was thought that her manufacturers were sufficiently established to maintain themselves in competition with the world, and free trade and specie were to her interest, she adopted both as her policy. It is believed, by the best financial minds in England, to this day, that she resumed specie payments too soon,—the effect being to oppress the poor, and the partially established manufacturers, while the landed aristocrats and the capitalists made money by the advance of relative values. English experience, therefore, teaches this: That free trade and specie payments go hand in hand. Both pertain to a *developed* country.

The *Tribune* has never yet had the boldness to absolutely repudiate Horace Greeley's old teachings, but it carefully ignores them. There was no doctrine he more urgently taught, than that of Protection to American Industry. In doing this, he constantly used the identical argument we employ, that England, being a selfish, was an unsafe guide. America, he taught, stands by herself, and while we did wisely to study the experience of other nations, it was ours to apply the lessons learned to the peculiar condition of affairs in this country. In doing this, we contend there are certain facts which cannot safely be overlooked. Among these are the following: 1. We are a debtor nation,—owing, as a Government, $1,000,000,000 abroad, and by States, railroads, and merchants, nearly as much more. This debt compels us to send nearly $100,000,000 of gold, or its equivalent, abroad every year. 2. We are developing our resources,—having railroads partially built, mines in process of being opened, lands awaiting cultivation, and immense resources of all kinds, that await the hand of the laborer, to develop into wealth. The veriest tyro in financial science knows that the process of development requires a larger amount of capital than does the transaction of active business. 3. The payment of our foreign interest now absorbs all surplus gold. 4. The accumulation of gold involves and depends upon the aggregation of substantial wealth. 5. Greenbacks, answering all the purposes of money, have fostered development, commanded confidence, and will do so again. At worst, they are as good as national bank notes, which are being increased in volume; and their circulation saves us the exportation of so much gold annually.

If the *Tribune* can show that we will advance more rapidly toward specie payments by borrowing $400,000,000, in place of our greenback circulation, thus requiring us to send $20,000,000 more of gold abroad annually, we will be glad to see it. Now, we stagger under what we send abroad,—how $20,000,000 more will relieve us we do not see. We repeat, our country differs from England, and has no need of copying her financial theory. Even the *Tribune* has ridiculed Pitt's Sinking Fund idea,—why follow Pitt's enforced specie-paying system?

LETTER FROM THE NILE.

Advices from Colonel Long—A Little About His Travels.

The following letter was received by the friends of Col. Long in New York by a recent mail. He expects to reach New York, on furlough, by August 1:

"ON BOARD DIAHABISH, ON THE NILE, KOROSKE, May 8, 1875.—I arrived here this morning, 350 miles from Berber, which place I left on the 29th of April with twenty camels, accompanied by my two Sergeants (now habitually attached as orderlies), specimens of the number of six for his Highness of the negro races of the country visited, among whom is the pigmy Ticki Ticki. To cross Armour is a fearful undertaking, I assure you. For 150 miles the route, though painful, is in close proximity to the river, and thus we have water for 200 miles. Leaving Abou Hamed, where the river describes a great arc westward, we are obliged to cross a bleak, barren sea of sand, so suffocating and hot that the thermometer will scarcely register the heat. Great simooms of khamseens blow with roaring sounds their hot breath, and cause your skin to crack like parchment. On all sides a sea of sand, bordered only by delusive mirages that lead many to their death, for there is no well or water, save one half-way, like Epsom salt, and none but camels may drink it. Then we have water for eight days, carried on camels' backs in goat skins. The camel, a patient, hard-working animal, without which it would be impossible to cross this desert, still has not the extraordinary powers attributed to him, and is waterproof only for two or three days, dying on the fourth. Thousands thus perish, and the road for the whole distance shows five to ten carcasses for every mile, bleached bones that indicate the deadly route. Added to this is the fearful see-saw movement. A forced march is necessary, and day and night, with occasional naps and stops for the purpose of eating black bread and onions and drinking of our nearly putrid water—all this may not give you the slightest conception of this march. I was welcomed by the inhabitants on my arrival here, and a diahabish of the Viceroy, furnished like a palace, awaited me by order of his Highness; and here, while gliding gently down the Nile, endeared to me by a thousand memories during my travels, rest—'sore labor's bath.' On each side are temples and palaces in ruins that mark that brighter civilization that once illumined Egypt, so celebrated and so grand in her mighty past. I hope to reach Assouna to-morrow, where a steamer awaits me by order of his Highness. Will go to Siout, and thence by rail, and will be in Cairo in fifteen days, from whence I will write you of the ancient cities, Thebes, Luxor, Karnak, sacred ground to me, whose classic tales are among the brightest souvenirs of my school days, and where grew the desire to visit the land whose gods were those in common with the Greeks and Romans.

"From Cairo, after getting through my official duties, I shall go to Paris, stopping there for a while to visit some of my relatives. I shall, if nothing forbids, pay you a short visit, (as my furlough is short,) hoping to arrive in New York by the 1st of August."

"LEAVE US ALONE."

Remarks of Frederick Douglass at a Fifth of July Celebration—Begging for the Colored People Discountenanced.

During a speech at a Fourth of July celebration at Hillsdale, near Washington, Monday, Fred. Douglass alluded to the condition of the colored race and said:

All we ask is a fair field to work in and the white man to leave us alone. We have been injured more than we have been helped by men who have professed to be our friends. They are lawyers without clients, ministers, broken down ministers without churches, wandering teachers without schools. They are great beggars. They have the gift of begging down to a nicety. They are great at getting out circulars. They scatter them broadcast over the land as leaves before autumnal gales. If you are worth anything, they will find out where you live, and if you never got a letter before you will get one now. Fellow-citizens, we must stop these men from begging. They misrepresent us and cause the country to look upon us as a poor and helpless people. They say, "Please give something to help educate the poor black people; but do, I pray, give it to me." And if it is $100, it is reduced to about 100 cents when it gets to the "poor black people." We do not want, we will not have, these second rate men begging for us. We protest against it."

Referring to the Freedmen's Savings Bank, he said: "We have had a Freedmen's Savings Institute, but we don't want any more. Our white friends told us that if we had cents, to bring them to them and they would take care of them; and if we had dollars or hundreds or thousands, also to bring them to them. They told us they had a goose and a golden egg. Yes, we put our millions there, but where are they now? The men who went into that bank a few years ago poor men are now domiciled in beautiful homes and drive their fine turn-outs. It makes me feel badly to think how we have been robbed. Just enough honest men have been put into the bank to insure its success. But while they put in two sound apples they slipped in five or six speckled ones, and were sure to turn the specks down. He urged the colored people to stop begging for themselves, and if they built churches not to ask the white people to pay for them. If they had banks, colleges and papers, not to ask other people to support them, but be independent. In concluding, he said: "We propose to cut loose from all invidious class institutions and to part company with all those wandering mendicants who have followed us simply for paltry gain, and we now bid an affectionate farewell to all these plunderers, and in the future if we need a Moses, we will find him in our own tribes."

A LETTER from Buda, Pesth, confirms the reports of the destructive character of the recent storms, and says that twenty-eight bodies have been found, while over one hundred people are missing. The destruction of property on the mountain slopes was fearful. No villages on the upper ground entirely escaped. Hundreds of people are destitute and homeless. Subscriptions have been opened, and relief is being liberally given.

A BLACKSMITH named John Henby, living near Hon Lake, Mississippi, recently had a quarrel with a woman named Martha Morgan, employed by him as cook. That night, while Henley was asleep, Mrs. Morgan approached his bed, and with a razor, cut a terrible gash in his throat. Henley, awakening, attempted to catch her arm, but caught the razor, which was drawn through his hand, inflicting an ugly wound. Mrs. Morgan then seized her child and fled to the woods. Henley lies in a precarious condition.

ON Monday evening at Brownsville, Tenn., Capt. J. B. Phillips, of the firm of Phillips, Leake & Co., wholesale grocers, was assaulted by R. Kautrourtz, an ex-sewing machine agent, and stabbed in the thigh and wrist with a razor, severing an artery. Phillips then drew a pistol and fired four shots at Kautrourtz, the last taking effect in his body and passed through his liver, from the effect of which he died. Phillips is still confined to his bed from his wounds, and was admitted to bail in $4,000 to answer.

THE following heart-rending sacrifice of a number of unsuspecting victims reported by an exchange: Two eloping couples from Kentucky were to be married at Caseyville, Ill., the other day, and when they went before the parson some dozen of their friends, men and women, "stood up" with them. The clergyman who performed the ceremony, the Rev. R. W. Jeffries by name, married the whole crowd in this fashion: "Gentlemen and ladies, do you agree to take those standing by your sides as your lawful husbands and wives?" to which they all nodded. The parties who officiated as groomsmen and bridesmaids were terribly surprised when they ascertained that not only the eloping couple but themselves also had been joined in the indissoluble bonds of matrimony.

TO CAPITALISTS.
I have invented a plan whereby Railroad Cars can be coupled and uncoupled, and the link set at desired angle, without requiring any person to go between the cars to accomplish it.
The plan is simple, inexpensive and effectual. A liberal interest in the invention will be given to a party who will furnish the money to get patents in this country and Europe.
I have a working model of the invention.

Latest Advices Concerning Money and Stock Matters.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, July 9, 1875.

There is very little encouragement in this country, and particularly in this neighborhood, for any expansion or increase in our banking facilities. The present number of our local loan institutions is full as large as our business necessities require. The large increase in banking institutions made within the past few years has tended greatly to divide up deposits, compelling all the banks to carry a surplus much greater in the aggregate than would be necessary if the number of institutions was smaller. The tendency now is to consolidate, and in this, while not diminishing the bulk of capital, lessen the number of banks. This course will result in better accommodations to borrowers, while it will give promise of better and more certain dividends.

The amount of paper offering is not large, but generally of good character. The banks are all carrying a safe surplus, and do not exhibit much disposition to let it out freely. The ruling rate remains unchanged, sound paper readily finding discount at from 8 to 10 per cent.

There is very little movement in stocks and real estate at present.

NEW YORK, July 8, 1875.

Money was easy 2a2½; prime mercantile paper 8¼a5. Sterling was steady at 486¾a 487 for sixty day and 489¾a490 for sight. The customs receipts were $567,000. Gold was weak, opening at 116¼, declining to 115¾, advancing to 116¼, reacting to 115¾, and finally closing at 116. The borrowing rates were 3, 1-64, 1-32 and 6 per cent. Loans were also made flat, and at 2a3 for carrying at the close. The Assistant Treasurer disbursed $479,000. The clearings were $51,000,000. The specie shipment to-day was $633,357, of which $500,000 was gold coin. The Assistant Treasurer opened bids for $1,000,000 gold. The entire amount bid for was $2,875,000. The lowest bid was 115.62½, and the highest 116.06. $1,000,000 was awarded at from 115.94 to 116.06. Governments are steady. Railroad bonds are quiet. State securities are dull, except Tennessees, which are strong and higher.

Business in financial circles was unsettled this afternoon by exaggerated reports of Gold Room troubles and forgeries and defalcations. In regard to the Gold Room, Jacob Rubino, a heavy operator on the bull side, was embarrassed by the sharp decline in gold which followed the Washington telegrams about the purchases of silver and a reduction in the Bank of England rate of discount, and today, when gold which he had loaned in the market was returned to him, he was unable to take it up and make his clearings. Some of this gold was sold out twice, first privately and then publicly, which accounted for the scarcity of gold at one time to-day, the floating supply being small. About $135,000 gold was sold out under the rule for Rubino and 20,000 shares of Lake Shore and Western Union, and hence the decline in these shares.

As to the bank troubles, it appears that an individual by the name of Eccles, on Tuesday, got an accommodation at the Mechanics Bank Association in the shape of a certified check for $146,000 currency to take up some gold at the Third National Bank, but when the boy presented the check, the Cashier of the Third National would not deliver the gold except to the principal, and also took possession of the certified check. The principal has not yet been found, and rumor has it that he is gone to Canada to see a sick relative. If there was any villainy in this matter it has been frustrated by the action of Mr. Jordan, of the Third National. The Merchants Banking Association has attached the gold held by the Third National, and there is not likely to be any loss.

There was a better feeling on the street at the close when it became known that there was no bank defalcation and that nothing had been lost. The gold clearings were delayed about an hour in consequence of Rubino's embarrassment. Stocks opened firm, but afterwards fell off on sales to realize profits. The principal activity was in Western Union, Pacific Mail, Lake Shore, Northwest and St. Paul. There was a subsequent reaction of ¼ to ½ per cent. After the second call the market was steady at the decline. Stocks at the close were steady in tone at a recovery of ⅛ to ¼ per cent. from the lowest point of the day. Lake Shore rallied from 59⅞ to 59¾, Pacific Mail from 40⅛ to 40⅜, and St. Paul preferred from 57½ to 58. Northwest common advanced to 39½ and preferred to 50¾, but the closing quotations were 39 and 50 respectively. Western Union sold at 79⅞a79½, Union Pacific at 75⅛, and St. Paul at 34½a34¾. Investment shares were strong. Delaware, Lackawanna and Western advanced from 119 to 120⅛.

The transactions on the Stock Exchange aggregated 105,000 shares, of which 35,000 were Pacific Mail, 16,000 Western Union, 9,000 Northwest, 7,000 Erie, and 31,000 Lake Shore.

COMMERCIAL.

Condition of the Markets at Home and Abroad.

DAILY REPORT OF PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, July 8, 1875.

The commercial situation has not varied much recently, and the leading markets present but little that is new, excepting that there is a stronger feeling in regard to values, under the influence of late advices from the source of supply. The demand, however, for goods of all kinds continues meagre, confined entirely to supplying immediate necessities, as there is a very general disposition for the present at least to carry no more stock than is absolutely necessary.

APPLES—The market continues dull, and old crop will soon be out of season; quotable at $4@5 ₱ barrel for old, and $3@4 for new.

BROOM CORN—There is not much doing in this market, and prices remain without quotable change. A Chicago report, under date of Wednesday, says: The retail trade continues fair. Quotations for choice hurl and inferior brush are lowered ½ cent, though sales are made occasionally at the old figures. The receipts of straggling lots are larger than many dealers had expected they would be, and as few care to add to their stocks, these odd lots are sold and sometimes forced on the market; but it is not probable that there is a great deal more of this sort of corn to come forward. Dealers still profess confidence in the future, and think they discern indications of an early revival of trade. The market is strengthened by the continuance of cold, wet weather, which extends over many broom-corn districts, and retards the growth of the coming crop. Quotations: Good to choice hurl, 12½@13½c; fair to good do., 10½@11c; inferior brush, 8½@9½c; crooked, 6½@8c.

BERRIES—Raspberries, $8 to $9 per stand of two bu.; Gooseberries, $2,50 per bushel; Currants, $3 @3.25; Cherries, $4.

BUTTER—The market continues very dull, as it usually is at this particular time, and no immediate change for the better is expected; peddlers and farmers are now supplying the demand, and commission merchants, in consequence, are doing little or nothing. Prime to choice solid packed, 14@16; common to fair, 10@12.

BEANS—Continue dull but unchanged. Mediums, $1.80 to $1.85; Navies, $1.90 to $2.

CHEESE—The market continues fairly active, and we can report regular jobbing sales at 11 to 11½c for prime Ohio Factory. A New York report under date of 7th says: Although the week has been broken by an important holiday, shippers are still buying liberally. The exports of the week compare favorably with the arrivals. There has not been any very material variation in prices for fine grades of cheese. Shippers have obtained some very good bargains, in full stock best heated factory paying 11c. The extreme heat of to-day creates considerable consternation among holders, stock in store suffering badly. Some of the late arrivals of fine stock have turned out well at the station, as receivers had them taken directly from the cars, and in a shady locality. At Little Falls the market was held on the 3d, instead of on Monday; sales were small at 12@12¼c for factory, and 11@12c for dairy. At Utica, the sales on Monday, July 5, were 10,000 boxes at 12@13¼c for factory, the principle rates being 12¼@12¾c.

DRIED FRUIT—Quiet; Apples, 7½@8½. Peaches, halves, 10@10½.

EGGS—The market continues quiet, and while the receipts have fallen off somewhat within the past few days, the same is true of the demand, and prices, if anything, are weaker, but unchanged; 18@19c.

FLOUR—The general tone of the market is a shade firmer, but the demand continues light, and prices remain unchanged. Spring wheat flours, $5,75 to $6.25, the outside figure for choice Minnesotas; winters, $6,25@6.50 for red, and $6.75@7 for amber and white. Following were the closing quotations in Chicago, on Tuesday: Choice winter extras, $7@7.25; common to good do., $5.50@6.50; choice spring extras, $4,75@5.25; fair do. shipping grades, $4.50@4.60; Minnesota, $5@5.50; patent spring, $6,25@8; spring superfines, $3,50@4: rye flour, $5.50.

GROCERIES—Trade in grocery circles continues quiet, as it usually is at this particular time, and the leading markets present no new or important characteristics to which reference has not previously been made in these columns. Our latest advices from the seaboard continue to report Coffee very firm and advancing, and Refined Sugars are also strong but unchanged. Raws are easy. We repeat former quotations, as follows:

GRAIN—The receipts and offerings of Wheat continue meagre, but there is not much inquiry, which may be attributed to the fact that there is little or no margin for profit in the product. Pennsylvania and Ohio red may be quoted at $1 25@1,28; ditto amber and white, 3 to 5 cents additional. The Oat market continues quiet, and prices are weak, with a drooping tendency; mixed, 61@62c, white, 63c, free in elevator—sales of white, on track, at 61. The supply of Ear Corn continues light, scarcely equal to the demand, and prices are tending upward in consequence; 77 to 79 on track, according to quality. Shelled Corn, although in light stock, continues dull, and may be quoted nominally at 75@77 free in elevator. Rye quiet and nominal at $1,05 to $1,10—but little offering and not much inquiry for it.

HAY—Baled is quoted, on track, at $17 to $18 for prairie, and $20 to $22 for timothy. Loose, $25 to $28, according to quality. Market very generally reported dull.

MILL FEED—Is reported dull, but unchanged. Bran is quoted at $18 to $19 per ton. Middlings, $1,35 to $1,45 per cwt.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, July 8, 1875.

Trade continues very dull and unsatisfactory, and what is worse still, there appears to be but little prospect of an early improvement. Crude, for immediate shipment, was quoted this P. M., at $1,21¼. Refined continues very much depressed; there was apparently no buyers at any price; it was quoted at 9⅞@9½c deliverable on Connellsville cars; notwithstanding we are assured, on good authority, that it could not be placed there under 9¾c actual cost, taking the low price of crude and barrels into consideration. This being the case, there are but few, if any, sellers at quoted rates, and unless there is a change for the better, a general suspension is almost inevitable.

The Barrel market is also dull, in sympathy with oil, but prices are nominally unchanged; countries, $1.10 to $1,15; city make, $1,30.

New York Lumber Market.

There is a fair business in a retail way for this season of the year, and prices rule about steady. In the wholesale trade there is very little doing at the moment. There is a hand-to-mouth policy noticeable. Dry Pine shows no falling off in price. Good Dry Black Walnut is in good demand at our figures. Railroad freight leave satisfactory margins for shippers. White Ash and Poplar are called for to a moderate extent. Yellow Pine is somewhat more active in the retail way, but cargoes are difficult to get remunerative prices. Hemlock and Spruce are moving more freely in a retail way, but wholesale dealers are 5 to 10c below recent quotations. Spruce Beams are dull. We quote: Spruce ₱ M, $15 to $17; Black Walnut Logs, 5 to 6c; do. Figured, 8 to 25 cents; Yellow Pine, 23@24c; White Oak Logs, cubic foot, 40@45c; White Pine, shipping, 19 to 28 cents.

PITTSBURGH LIVE STOCK MARKET.

PITTSBURGH CENTRAL STOCK YARDS.

ARRIVALS.

Following were the arrivals of live stock at these yards from Sunday up until noon to-day, and, to afford a comparison, we append those of the corresponding time last week also:

CATTLE.

As compared with the same time last week, the receipts show a falling off of 37 cars of through and 60 cars of local, making a total of 97 cars; the sales footed up 1,616 head, against 1,889 same time last week. Philadelphia buyers bought 65 cars; New York, 10 cars, and country dealers and butchers 45 cars, making in all 110 cars. There were some through cattle for Philadelphia, but exactly how many we failed to learn.

There has been, as noted in our report of yesterday, a very decided change in the general position of the market as compared with last week, and while it was not wholly unexpected, the improvement, if we mistake not, was much greater than was generally expected. It was very generally expected, in the view of the very hard market last week, as well as that of the week preceding that again, that there would be a falling off in the receipts as there has been, but then the demand was more active than had been counted upon, and with an increased inquiry and a diminished supply, sellers had no difficulty in forcing prices up from ¼ to ½ of a cent ₱ lb., and even at the advance the supply was unequal to the demand. Some dealers reported the advance at ½ on the common and medium grades, but it should be borne in mind that these grades had been forced down more during the last few weeks than the better grades.

The bulk of the offerings consisted of grassers, many of them not in as good a condition as could be desired by any means; but in consequence of the very limited supply on sale they sold readily, and that, too, at the advance above noted. Prime cornfed beeves were remarkably scarce, but the advance on these was scarcely equal to that on the common and medium grades, for the reason that they had not depreciated as much. During the past three or four weeks common stock dropped fully one dollar ₱ cwt. while good corn-fed beeves did not shrink more than 40@50c, and the indications are that the latter will continue to command a sharp premium for some time to come, although the general belief is that cattle of all kinds, in sympathy with the general depression, are destined to rule considerably lower. The offerings of Texas cattle were very small, and the same was true of stockers, but the supply was fully equal to the demand, which was light.

HOGS.

The market from Monday up until Wednesday was quiet, the demand being light, with little or no variation in prices, but to-day there was a decidedly better feeling, and prices, as compared with the day preceding, were advanced from 10 to 15c ₱ cwt, and 15 to 20c as compared with the close of last week. Good, smooth, light Yorkers have been selling right along just about as fast as they arrived, and for several days brought fully as much as good heavy weights, such as are bought for shipment to Philadelphia, which is something unusual; ordinarily there is a difference of from ⅛ to ½ of a cent between these two grades, the latter bringing that much more than the former, but from last Friday up until yesterday there was little or no difference made, and at the present writing there is only about 10c per cwt between them. The product is firmer and prices are somewhat better, and this, together with the feeling prevailing that the advance has been about reached, is not without its influence upon the market for hogs.

SHEEP AND LAMBS.

The reaction in this grade of stock was more active than that in cattle, and we are satisfied that, notwithstanding the selling interest generally were expecting an improvement, they did even better than they had expected. Prices, as compared with this day week, may be quoted up ¼ to 1 cent per lb on the best, and ½c on common and medium grades. There was one bunch of prime 100 pound sheep sold for 5⅜, which would not have brought more than 4 50 to 4.60, and there was a corresponding improvement in the market for Lambs. Some operators are inclined to the belief that the advance was too rapid to be permanent, but it should be borne in mind that this particular kind of stock was down lower than either cattle or hogs.

L. A. WELSH, Sergeant Signal Service, U. S. A.

THE stage of water last evening was two feet, eleven inches, and rising slowly; it is expected that the rise coming out of the Allegheny will make at least four feet here. Business at the landing improving.

THE Ashland was to have left Cincinnati for this port on Wednesday.

PILOT CHAS. BOBO had his license returned to him on the 5th inst.

THE dredge boats Ohio and Oswego are engaged in dredging at Saw Mill Run.

THE Fannie Tatum was loading at St. Louis, at last accounts, for Pittsburgh.

THE Ella Layman passed down yesterday from McKeesport, en route for Economy, with a pic-nic party.

THE Mary Houston ran from New Orleans to Cairo in 4 days and 13 hours, and Cairo to New Orleans.

THE hull for the new towboat Wm. Barnhill arrived from Pringle's boat yard yesterday, having been towed down by the Barnhill.

CAPT. J. T. RUSSELL and Clerk Charlie Russell, of the late R. W. Skillinger, left Cincinnati for Wheeling, by rail, Tuesday night.

THE Muskingum and Kanawha rivers were rising on Wednesday, the former about two feet and the latter some eight inches in twenty four hours.

IT is said that the Utah, Fannie Tatum, Ashland, Clarksville and John Howard are to run in the New Orleans and Arkansas River trade the coming season

THERE have been no arrivals or departures since the date of our last report. The Fittie Hegler is due from Cincinnati, and, as will be seen by card, is announced to return on Saturday.

THE I. N. Phillips left last evening, to assist the John Gilmore up with her tow. The crews of the Alice and Sam Brown, Simpson Horner, Oakland, and other boats left by rail yesterday to bring those boats to this port.

THE Government dredge boats have completed their digging at Buffington Island, and it is to be hoped that that dangerous point to heavily laden craft will be much improved hereafter. During low water it was one of the most dangerous places on the river.

THE fine passenger and freight steamer John L. Rhoads will positively take her departure for St. Louis to-day, and those interested should make a note of this and be governed accordingly. Captain J. M. Vandegrift is in command, and Messrs. Fisher and Greenlee are associated together in the office.

A DISPATCH from St. Louis of July 7th, says the John Means got away for Ashland last night with 1,000 tons of ore, and the Etna follows on Friday. The Fannie Tatum left for Pittsburgh with 200 tons of pig metal for Portsmouth, 300 tons of same for Pittsburgh, 50 tons of miscellaneous freight and 25 passengers. Very heavy rains and a rapid rise in the river are reported from Hannibal and Booneville. This will have a tendency to keep up the rise at this port which is already more than it has been since 1852. A large portion of the American Bottom is now overflown.

CAPT. LEATHERS says that for the first time since 1867, he feels stiff and proud when he looks at the prospects around him. He says it looks like as if the people were at last on the high road to prosperity, having gained wisdom from experience and favor from the Most High. Not only are the cotton prospects unusually fine, but corn, wheat and potatoes are plentiful, and there is some meat in the land. The cotton yield promises to be large. Every one, in fact, speaks encouragingly of the situation, and steamboatmen rejoice in common with the planters in the prospect of big trips next fall and winter. May no untimely blight fall on the growing crops.

IN an old Northwestern *Gazette*, published in 1794, is an announcement from an enterprising river man of Pittsburgh, stating that "arrangements having been made for a more commodious line of keelboats from this place to points of settlement on the Ohio river, passengers and emigrants are invited to patronize my line. The boats are well armed and manned, and there need be no fears of the Indians along the way. To the ladies especially I would say that my keelboats are fitted up with separate cabins for them, and that, therefore, they need have no occasion to go ashore." This was in 1794. Not long thereafter came steam and the first steamboat, but not before they were needed.

CAPTAIN SCHOONMAKER, of the towboat Charles Bowen, was arraigned before Commissioner Hooper, yesterday, charged with assaulting a colored fireman named Sam. Grant. The prosecuting witness testified that, because he did not go to work, yesterday morning, when the engineer ordered him to, the Captain called him a vile epithet, and sprang upon and misused him. The Captain admitted the assault, claiming that he was provoked by Grant's indecent and mutinous conduct, but strenuously denied having used any bad language in connection with the kicking which was administered. He brought witnesses to corroborate his statement that he had been a member of the Methodist Church for eleven years, and was never known to call wicked names. In view of the circumstances, the Commissioner dismissed the case.—*Cincinnati Commercial, Thursday.*

YESTERDAY'S Cincinnati *Gazette* says:—Capt. John J. Larragh arrived from Pittsburgh yesterday morning, and proceeded to Memphis at night, to take command of the Belle of Texas, in which steamer he has purchased an interest, and also an interest in Captain John Woodburn's new boat, now being completed at Pittsburgh. He will construct to the machinery of the Paragon at present. ... Of late there has been considerable rivalry between the Bernard and Nail City, each claiming that respective boat the fastest. To settle all disputes as to which was the fastest, both parties agreed, at St. Louis, to test the matter by departing from that port together. So each with two barges left St. Louis Thursday evening. ... The Nail City getting off thirty minutes ahead of the other. Starting up the river the Ber. and ... passed the Nail City at Chain Bar above Cairo, and has kept the lead ever since, making the run from St. Louis to this city in five days and twelve hours. The Nail City is expected up to-night. John Sullivan and Jake Reme... piloted the Bernard from St. Louis to Cincinnati.

A New Era for Steam Navigation—The Speed of Boats to be Doubled.

The Cincinnati *Commercial* has been shown a working model of a new invention which accomplishes, in a simple manner, the object which has been so long desired by steamboat men. It is a wheel with movable paddles, so arranged as to feather and cut the water in front, and, after pushing to the length of one-fifth the diameter of the wheel, or to the point where the ordinary paddle would lift the water in rising, it feathers again, and rises without lifting any water, thus giving the entire force of the power ordinarily required to submerge the paddle on the one side and lift the incumbent water upon the other. In short, the whole direct push of the engine is given to the water. As the wheel may be submerged to any point short of a shaft on which it revolves, any desired resistance may be obtained. The water being the fulcrum on which the lever (the wheel) acts, and four feet depth gives four times the resistance at one foot, it is readily seen how much a wheel gives the direct power of the engine upon the boat, losing very little by slip and absolutely nothing for the entrance into and the emergence from the water, as in the ordinary paddle. It is claimed by the inventor that it will increase the speed of steamboats from one-half to two-thirds over their present capacity, with the same engines as now used, affording greater economy in the transportation of freights, and putting them for the carrying of passengers to many points in successful competition with railroads. It also solves the problem of the competition between the New York canal and the railroads for the transportation of grain to the seaboard in favor of the canal, as there is an available power obtained, at small expense, sufficient to tow any length of train of canal boats. Its adoption by ocean vessels must shorten the voyage to Europe one-half over the screw propeller now in use. The results arrived at by the invention are the same frequently attempted, but hitherto with such an amount of machinery and cumbrous appliances as made them impracticable; but it seems this one must suffer the fate of many other extraordinary inventions, namely, be delayed for want of means in the inventor to obtain his patents and put it into practical operation. The inventor, Mr. Ross Forward, living at 58 Clinton street, tells us that he has not yet offered any interest in the invention with a view of raising necessary means, but is willing to do so with any man who will come to his assistance. From the working of the model it appears to be a perfect thing, and ought not to wait long for the right kind of backing from men interested in advancing such an improvement.

DAILY GAZETTE.

Circulation, 15,800.

THE WEEKLY GAZETTE.

The current issue of the WEEKLY GAZETTE is for sale on our counter to-day. It contains a complete *resume* of local and general news, telegraphic intelligence from every part of the world, commercial, financial, oil and cattle market reports, and editorials on all the leading topics of the day; altogether, thirty-six columns of choice reading matter, embracing subjects of interest to the lawyer, the doctor, the merchant, the mechanic, the farmer, and the family. The reputation of the GAZETTE is so thoroughly established, especially in the correctness of its commercial and market reports, that it has gained a circulation

The Largest in Western Pennsylvania.

It is, at the same time, the cheapest in the list of weeklies of its grade. The subscription and club rates are as follows:

TERMS—Single copy, $1.75; clubs of five, $1.50; clubs of ten, 1.40; this includes postage paid by the publishers. A copy of the WEEKLY GAZETTE will be sent free to the party who acts as agent, for every ten numbers paid for.

Its especial merits are:

It contains the Latest News from all parts of the World.

Its Market Reports are prepared especially and exclusively for this journal, and are the only reliable ones published in Pittsburgh.

It is especially adapted for the Farmer, Mechanic, Merchant and general Family use.

The large circulation of the GAZETTE is attributable to the recognition of its merits, and not to the efforts of canvassers who make a business of securing names on a percentage. Postmasters at many points have acted for us, and these alone are our accredited agents. All desirous of receiving the best Weekly published in Pittsburgh should subscribe at once.

HOME NEWS.

The Gazette for the Summer.

Persons leaving the city for the summer can have the Daily GAZETTE sent to them by mail, by leaving their orders at the counting-room.

Teachers Elected.

Franklin District, Seventh and Eighth wards.—Principal, D. C. Holmes; Assistants, Misses Caroline Davis, Mattie McCracken, M. J. Snodgrass, E. J. Getty, E. D. Brown, Mattie Coleman, Sarah A. Fires in Allegheny.

About eleven o'clock yesterday morning an alarm was sounded from box 73 in Allegheny. It was occasioned by a slight fire at Jack's Run, about half a mile from the alarm box, and beyond the city limits. It was extinguished by the parties who occupied the house.

Last evening, shortly before eight o'clock, an alarm was sounded from box 45, occasioned by the discovery of fire on the roof of the residence of Mr. James Stedeford, No. 112 James street. It was extinguished before any serious damage was done.

Wanted to Make an Information.

There are many queer customers visit the Mayor's office for divers and sundry purposes. Some are sharp, keen, saucy and impertinent, and others are dull, slow, half afraid, heart-broken, sorrowful or courteous. It's all according to the business they have in hand. If a man knows he is bringing grist to the mill, he is inclined to be somewhat independent, but on the other hand, if he understands that he is the grist which must pass through the judicial hopper, he invariably manifests that meek and harmless disposition which of itself alone constitutes an appeal for mercy, and in a silent, pitiful way asks not to be ground too fine. It was one of the pert and impudent sort who came in last evening, and she was a woman, too. Our reporter had been sitting on a lounge in the front office for over half an hour discussing, with Detective Messner, politics, religion, the secrets of the detective business, Spencer's system of philosophy, the natural history of man, and several other topics upon which Messner is well versed, when she interrupted the thread of conversation by waltzing up to the railing and saucily propounding the query, "Is the Mayor in?"

Detective—No.
Querist—Is the Clerk in?
D—No, what do you want?
Q—I want to make an information.
D—Come down in the morning.
Q—Will I have to wait that long?
D—Yes. No one's here now. What's your business?
Q—That's none of your business.
D—Take a walk and call in the morning. Good evening.
Q—See here. I'm like John Coyle, I won't stand any personal abuse

And with that fairy tread and sylph like grace which characterizes the denizens of Tin-pot alley, she pranced through the doorway and was lost to view in the gathering gloom.

THE AMMON MURDER.

Zell, Hoffman and Fishback Acquitted.

In the case of the Commonwealth vs. Zell, Hoffman and Fishback, indicted for the murder of Martin Ammon, in the saloon of Jacob Sorg, on the South Side, last April, the jury returned a verdict of acquittal yesterday morning and the court ordered the discharge of the prisoners. The announcement of the verdict was received with general approval, as there was no evidence offered which could warrant the conviction of the defendants.

OUR FIREMEN.

A Review of the Departments of Both Cities.

Pittsburgh and Allegheny City have reason to be proud of their respective Fire Departments, for they are unexcelled by anything of the kind anywhere. The frequent compliments they receive from delegations from other cities sent to look into their workings, and the demands even from foreign cities for reports of their organization, are evidences of their excellence and fame. Much of this efficiency is due to the personal pride which the firemen take in their work, and to the careful oversight which has been established over every detail.

The "boys" seldom come out for display except in cases where the big bells call them to show their efficiency. The time for the annual review is close at hand, however, and the people will then have an opportunity of seeing each department complete, on dress parade, when some idea of its strength can be obtained. The review of the Pittsburgh Department takes place next Saturday afternoon at four o'clock, on the Monongahela wharf. Invitations have been extended to Councils, to members of the press, and citizens generally, to witness the review, which promises to be something worth seeing.

The review of the Allegheny Department will take place on Sherman avenue, Thursday afternoon, July 15, at four o'clock. Similar invitations have been extended for this display, and the "boys" will have a large attendance.

CLASPED HANDS.

The Twelfth Ward School Breeze—The Breach Healed—An Amicable Basis Reached.

The little trouble between the Principal and Assistant Principal of the lower precinct of the Twelfth ward schools came to a focus yesterday. It will be remembered that the Principal, Professor H. G. Squires, charged his assistant, Miss Emile E. Martin, with insubordination, and with disobedience of rules, as laid down by the head of the establishment. In return, Miss Martin was equally as emphatic in announcing that Prof. Squire's chief characteristic as a Principal was incompetency. The little difference of opinion finally reached such a crisis that it was found necessary to refer it to a committee consisting of Professors Harrison, Fulton, Duncan, Morrow and Logan. Yesterday the committee held a meeting to dispose of the business before them. Prof. Squires was there; likewise Miss Martin; also Prof. Ford as counsel for Prof. Squires, and Prof. Burtt as legal adviser for Miss Martin. The Directors of the District, too, were in attendance.

The committee being composed of peaceable material, first essayed to pour oil upon the troubled waters by informally listening to both sides of the story and then endeavoring to effect a compromise. The distinct charges on either side were not read, but the contestants each tersely and vigorously gave the substance of what it was proposed to prove. The atmosphere was decidedly belligerent for a season, but finally, after a two hours discussion, the beautiful dove of peace spread its wings over the assemblage, and an amicable compromise was arranged. In brief this compromise bound the parties in interest to let by-gones be by-gones; to commence anew; to endeavor to work together in harmony; and hereafter to refer all differences of opinion as to the management of the school to the Board of Directors,—such appeal not to be considered as an interruption of friendly feeling. So they clasped hands across the chasm, and all was once again serene.

It is a pleasure to note this happy termination of what promised to be a rather unpleasant strife. Both the parties engaged are experienced educators who stand high in their profession, and there was a general regret among their friends, that any little personal feeling should have threatened serious trouble in the school. It is to be hoped now that the storm has passed, that there will be nothing but sunshine hereafter.

If warm weather ever comes in earnest people will want ice cream with that, they will find that the Cocoanut Drops, Macaroons and Lady Fingers, made by S. S. Marvin & Co., are the best and cheapest they can buy.

THE SHRIEVALTY.

R. H. Fife Successful on the Thirtieth Ballot.

The Dead Lock Broken by the Suggestion of New Names—The Proceedings of the Convention—Mr. Fife's Nomination Made Unanimous—General Satisfaction with the Result.

In compliance with a call of Chairman William Blakely, Convention No. 1 for the nomination of a Sheriff re-assembled in room No. 1 of Common Pleas Court No. 2 yesterday. Long before the hour of meeting, a large crowd congregated in front of the Court House, and small groups of men might have been seen gathered at different points, who were busily engaged in discussing the situation. The candidates were promptly on hand and were surrounded by their friends, who seemed to manifest as much interest in their welfare as they did at the first coming together of the Convention.

The Convention was to have been called to order promptly at eleven o'clock, but it was almost that time when the delegates began to file into the court room. At three minutes after eleven Gen. Blakely made his appearance, and although there were not more than one hundred delegates assembled, he took his position on the stand and began to prepare for business.

THE CARDS OF ADMISSION.

As was the custom at the time the Convention meet at Library Hall, on the 15th of June, none were admitted to the room except delegates, editors of the daily papers and reporters of the press, and each of these could only gain admittance by presenting to the door-keeper a card of admission. The rules in this regard were strictly enforced, and when the house was called to order there was no delay occasioned by persons being present who were not entitled to a seat in the Convention. At fifteen minutes past eleven the Court room was about two-thirds full of delegates, and general good humor prevailed, conversation being indulged in freely. At this point some one who thought himself a delegate came to the door, and wanted to come inside. Not being admitted he tried to use a little force, but soon abandoned his project when Lieut. Hager made his appearance and demanded order.

THE "NEW MAN" IDEA.

Before the Convention was called to order the idea of bringing out a new man for the office was talked over. A disposition was manifested upon the part of a large number to abandon the candidates in the field and place a compromise man on the track. While this plan met with favor on the part of a large number, there were not a few who signified their intention to stand by their candidate while there was any hope of securing his nomination.

CALLED TO ORDER.

At twenty minutes past eleven General Blakely rapped with the gavel and called the Convention to order. He requested that the delegates be seated as far as possible before the house proceeded to business. The Chair announced that 'Squire Hultz would call the roll. He further stated that a substitute appearing for a certain district would be required to give his name and the name of the original delegate would then be omitted. After the calling of the roll no subsitutes would be allowed but every man would be expected to be in his place to cast his vote. The roll call was commenced, and the delegates and substitutes responded promptly as directed.

When 'Squire Hultz had reached the Second District of the Eighth ward, Pittsburgh, he called the name of James Phelps, who was the delegate from that place. Mr. Phelps responded "Cluley," thinking that a ballot was being taken, which caused an uproar of laughter. As matters proceeded, the Chair insisted upon order, and at times stopped the proceedings until the delegates ceased talking.

CHAIRMAN BLAKELY'S ADDRESS.

At the close of the roll call, Gen. Blakely said he regretted very much the re-assembling of the Convention, but he thought the political machinery must remain at a stand still until a nomination for Sheriff was made. He then referred to the former conventions at the market house and at Library Hall. He thought the action of the delegates at Library Hall was sufficient to show that they stood by their respective candidates like men. He commended this course, but inquired how long this dead lock should stand. The speaker next said that he had remained with the Convention at its last session for sixteen hours, with nothing to eat and little to drink (a voice I didn't). [Laughter]. He then referred to the record of the Republican party, and said it was one of which its adherents could justly be proud, and should be maintained. He referred to the present state of affairs, and said already one branch of the National Congress had passed into the hands of the Democratic party. A defeat of the Republican ticket in Allegheny county would, in all probability, result in the overthrow of the State ticket, and would assist in lessening the chances of the election of the next candidate of the party for the highest office within the gift of the American people. The Speaker thought if after the first or second ballot had been taken there was no choice, for the good of the party, he appealed to the delegates to take up a new man and cast their ballots for him. He believed the candidates already in the field, gentlemen of the highest order, but if one of them could not be nominated in harmony, then the Convention would have to resort to the next best thing. He called upon the delegates to exercise a little good judgement and act accordingly.

THE ROLL CALL

was then ordered, but before it was begun, Mr. Dixon Bigley made a motion that at the conclusion of the next ballot, the names of the two candidates be dropped from the roll, having the lowest number of votes.

This was vigorously opposed, and half a dozen rose to their feet to obtain the floor at the same time.

The Chair stated that this question had been before the Convention a number of times at its last session, and at that time was tabled, laid under the table, and disposed of so often that he refused to entertain the motion.

Mr. James Hunter began to make a speech in opposition to the motion, but was called to order by the Chair before he had concluded. The gentleman held that it was unfair to compel any one to leave the field without making a similar disposition of all the candidates.

While the roll was being called one or two of the delegates, who were outside, came in after their names had been called. As their names had been passed the Chair refused to have them repeated.

(A voice from Mr. Robert Elliott: "Go on with the vote. It don't make any difference about the vote.")

Samuel Scott took the floor and argued that the names of the delegates who did not answer the first time should be called a second time. He said that such a rule was the custom and held that the simple calling of the names once was never adopted until it was approved of at the last Convention.

The Chair refused to change his ruling and told the Secretaries to count the vote.

THE TWENTY-FOURTH BALLOT.

The twenty-fourth ballot resulted as follows:

Diehl	65	Fife	74
Lindsay	74	Cluley	8

THE TWENTY-FIFTH BALLOT.

The twenty-fifth ballot was ordered, and the Secretary proceeded to call the roll. Before the Eleventh ward, Pittsburgh, had been reached there seemed to be a little mis-understanding in regard to the calling of the roll, which was occasioned by two or three names being called the second time, at the request of the house. A number of attempts were made to proceed, but as there was some difference in the tally sheets of the Secretaries, they were allowed time to compare, and the work then went forward. An attempt was made to have the roll re-called, but it being evident that there was no mistake or confusion among the Secretaries the Convention was satisfied to have it go on.

The ballot resulted as follows:

Diehl	62	Fife	76
Lindsay	74	Cluley	7

At this point in the proceedings it became evident that there was but little use to proceed balloting on the old candidates, as the the result of the twenty-fifth ballot showed but little change.

Dr. Redlick of Sharpsburg arose and made a motion that the nominations be opened for the naming of new men.

This was opposed by a number who attempted to get the floor, and the delegates called for another vote.

Mr. Dixon Bigley renewed his motion that the names of the two lowest on the list be dropped.

The chair decided the motion out of order on account of its having been previously disposed of.

A motion was made that the Convention proceed to the

TWENTY-SIXTH BALLOT,

which was almost unanimously carried, there being but one dissenting vote.

The following was the result:

Diehl	61	Fife	74
Lindsay	71	Cluley	7

At the close of this ballot Mr. McClurg addressed the chair, and stated that there were one or two parties in the room who were not delegates.

The chair asked the gentleman to point out the man or men to whom he referred, which was done, and they were requested to retire.

Chairman Blakely announced that the

TWENTY-SEVENTH BALLOT

was in order, and the Secretary was directed to call the roll.

The result was as follows:

Diehl	61	Fife	74
Lindsay	71	Cluley	7

A NEW DEPARTURE.

Mr. Littell moved that the vote to close the nominations be reconsidered. The gentleman said if the Convention wished to hear his reasons for making the motion he would give them, but if it would cause disorder he would take his seat. On being allowed to proceed, he said he believed the Republicans were all game, and each delegate would stand by his favorite candidate as long as there was no new man before the Convention. He therefore favored other nominations.

Mr. Powers followed, and endorsed the remarks of the preceding gentleman, and said the delegates from the country district had come into the Convention for the purpose of putting a candidate before the people, but they did not care about spending so much time uselessly.

Mr. Miller of the South Side, said that the people from that side of the river had no man on the ticket, but he was willing to refer the matter back to the people and therefore moved that the Convention adjourn *sine die*. A hundred "no's" went up from the different parts of the house, and the vote on the motion of Mr. Littell was called for.

DIEHL'S NAME WITHDRAWN.

Mr. Robert Elliott here rose and said for the good of the Republican party he would withdraw the name of W. J. Diehl.

Following this the vote on the motion to re-open nominations was taken, which was carried by a large majority amid tremendous cheering.

The following new men were then nominated: H. M. Long, Milton Varner, Jared M. Brush, J. J. Gillespie, Judge Parke, John B. Kennedy, Wm. A. Herron, John B. Stephenson, Captain W. W. Tyson, Springer Harbaugh, David McClelland, A. L. Pearson, William Jones, of Elizabeth, and Col. Highlands.

Before the ballot was taken Gen. Pearson withdrew his name and made a few remarks, looking to a reconciliation and the uniting of the divided factions.

The name of Mr. H. M. Long, of the North Side, was also withdrawn.

On motion the Convention decided to go into the

TWENTY-EIGHTH BALLOT,

with the following result:

Fife	79	Brush	4
Lindsey	82	Parke	2
Cluley	12	Kennedy	0
Jones	36	Herron	0
Varner	1	Harbaugh	0
Stevenson	1	Tyson	0
Gillespie	0	McClelland	0
Highlands	0		

'Squire Stewart withdrew the name of Judge Parke before the next ballot was ordered.

Dixon Bigley made a motion that all the names be dropped but the four having the highest number of votes.

This was amended by adding that at each successive ballot the one having the lowest number of votes be dropped.

The Chair put the motion as amended, which was carried by a large majority.

Chairman Blakely announced that the candidates before the Convention were Lindsay, Fife, Jones and Cluley.

Before proceeding to the

TWENTY-NINTH BALLOT,

Mr. James Hunter withdrew the name of Samuel B. Cluley.

General A. L. Pearson then proceeded to call the roll, and the result was announced as follows:

Lindsay	105	Jones	36
Fife	80		

Before the announcement of the vote a number of delegates asked the privilege of changing their votes, but there being no nomination, and the chair stating that it was impossible to tell how the delegates voted, he said no votes could be changed, but there would be an opportunity to make such changes as might be desired on the

THIRTIETH BALLOT.

The roll call was proceeded with without a motion and Gen. Pearson pronounced the names. There was a general call for Fife, and the country delegates sent up a shout that made the welkin ring for a few minutes.

The following was the result of the ballot:

Lindsay	99	Fife	119

Gen. Blakely declared Mr. Fife to be the nominee of the Convention, and on motion of one of Mr. Lindsay's delegates, his nomination was made unanimous. Mr. Fife was called for, and in taking the stand, attempted to make an address, but the cheering not having subsided, he could not be heard. He simply thanked the Convention for the nomination and asked the delegates to dine with him at Youngson's, the Opera House saloon, and the saloon across Fifth avenue from the Court house.

The Convention then adjourned for dinner.

ACTION FOR DAMAGES.

In the Common Pleas Court No. 2 yesterday Wm. M. Arthurs, administrator of Eliza Arthurs, deceased, brought an action for damages against Joseph Hastings, P. O'Neil, G. Linderman, A. Dempster and William Martin. The defendants are charged with having entered upon said Eliza Arthurs' premises, in the Eleventh ward, and excavated along Granville street, to the great damage of the property. Summons issued.

COURT BREVITIES.

Suits were entered in the Common Pleas Court No. 1 yesterday by Sarah Ann Brown by her next friend against Francis Devine and John E. Sorg, both being charged with slander. A second action was brought against the same parties and John Devine, who are accused of conspiring together to injure the reputation of the plaintiff. A *capias* was issued in each case.

Yesterday the Grand Jury ignored the bill against Hugh Roney, of Allegheny, who was charged with larceny by bailee, it being alleged by J. C. Golden that he asked him to change a fifty dollar bill, which Mr. Roney gave to a boy to get changed, and did not return.

THE BRADDOCKS FIELDS MURDER.

George Gardner, the Man who did the Shooting, Released on Bail.

Mention was made in our issue of yesterday of the killing of an unknown man at Braddocks Fields on Tuesday night and of the inquest held upon the body the day following. George Gardner, who did the shooting, was brought to the city by the Coroner and lodged in jail to await the action of the Court. Yesterday his case was called to the attention of Judge Sterrett who released him on one thousand dollars bail. The Court expressed the opinion that the Coroner would have been justifiable in releasing Mr. Gardner, as the shooting was evidently not with intent to kill upon his part. A citizen of Braddocks Fields went on the bail bond.

ACCIDENTALLY SHOT.

A Little Boy Badly Hurt in the Eleventh Ward.

About one o'clock yesterday afternoon Thomas Hill, a little boy nine years old, accidentally shot and dangerously injured his brother, John Hill, about five years of age. The lads found a pistol in their parents' house, on Gazzam's Hill, in the Eleventh ward, and while playing with it the weapon was discharged, the ball entering the side of the younger boy, between the first and second ribs, and taking a downward course. Dr. Carnman was summoned and dressed the wound. He was unable to find the ball, but says the boy may recover if the ball has not touched the liver or kidneys.

A. M. E. CONFERENCE.

Yesterday's Session at Avery Mission Church—The Case of Rev. D. B. Mathews—Committees Appointed.

Yesterday morning's session of the A. M. E. Zion conference, at the Avery Mission church, was opened at ten o'clock by Bishop J. J. Moore reading a chapter from Scripture, followed by Rev. Ross, who delivered a prayer. At the conclusion of the devotional exercises Prof. A. Wilson was introduced as a delegate from the New York conference, and he made a neat and appropriate speech, greeting the conference in the name of the New York conference. He then read a report of what the late Bishop Rush had bequeathed to the church; to the New York conference of the A. M. E. Zion connection, $10,000; to the Zion church, New York, $5,000; to church at Newark, N. J., $100; to the United Daughters of the conference of Zion church, N. Y., $100. The greater part of the morning was taken up in a discussion how to proceed against Rev. Mathews. This was finally referred to the Committee on Complaints to work on and report to-day. The Conference then adjourned until two o'clock in the afternoon.

Upon re-convening in the afternoon, the session was opened with devotional exercises, after which reports from lay delegates as to the state of their several churches and stations were called for.

The case is expected to come up to-day, and in case it does, the Conference decided to sit with closed doors. Adjourned until nine o'clock this morning.

A Revengeful Organ.

The stomach is a revengeful organ. If we assign it indigestible food, it not only refuses to perform its office, but inflicts upon us unspeakable tortures, such as those of indigestion, colic, cholera morbus, &c. Not content with giving us pain, it frequently inaugurates an excessive and wasting diarrhea, called dysentery, which carries us to our graves. With a view to prevent these consequences, as soon as the stomach gives notice by premonitory twinges that its cargo is not to its liking, a wineglassful or two of Hostetter's Stomach Bitters should be swallowed. This admirable digestive cordial will promptly reconcile the refractory organ to its contents, and prevent any of those annoying and possibly fatal results which the presence of indigestible food in the stomach is liable to produce. The Bitters are also a superb tonic, restorative and appetizer.
